

Custom Solutions to Support RWE Initiatives

CHALLENGE

Partner needed access to real-time, regulatory grade COVID-19 data to support the development of their therapeutic drug

SOLUTIONS

- Day 0** Partner requested COVID-19 data
- Day 16** Target RWE leveraged turnkey solution to launch and activate a new COVID-19 registry
- Day 17** In addition to registry, Partner requested rapid access to real-time hospitalized patient journey data
- Day 20** Target RWE developed a solution, aggregating data from 350+ EHR hospitals across 41 states
- Day 60** Target RWE curated and analyzed first set of patient data, which was delivered to Partner
- Day 90** Target RWE datasets expanded to over 100,000 patients (50,000 outpatients & 50,000 inpatients)
- Day 95** Target RWE performed data linkage associations for the Partner

IMPACT

- Generated data to support the development of COVID-19 treatment programs
- Participated in FDA COVID-19 discussions to support global COVID-19 efforts
- Published data contributing to the body of evidence surrounding unique COVID-19 patient journeys
